

**To assemble the sofa do the following:**

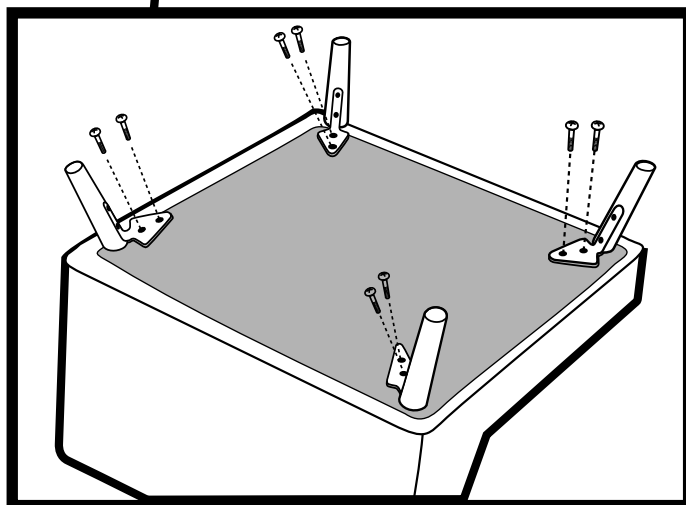

1. Turn each sectional piece (also referred to as section or seat module) upside down and fasten one leg at every corner of the section by inserting the provided bolts as shown on Figure L. Upon completion place each module on its legs.

2. Connect the seat modules by turning section B's connector towards section A's triangular prism (Figure A1) and pushing the sections together without leaving any space between the two (Figure A2).

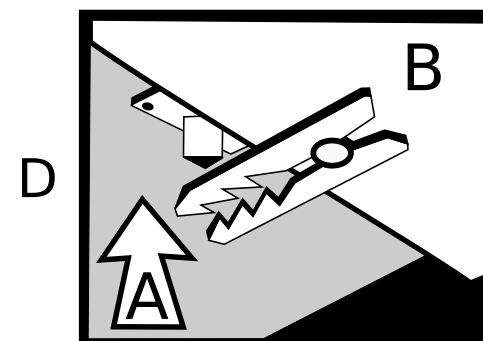

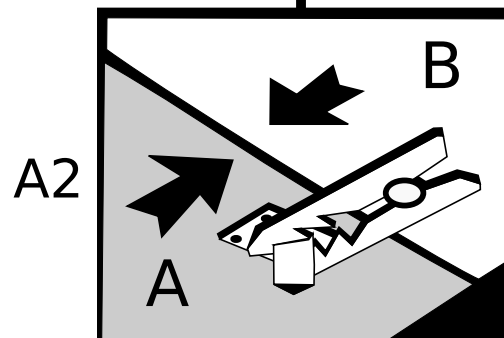

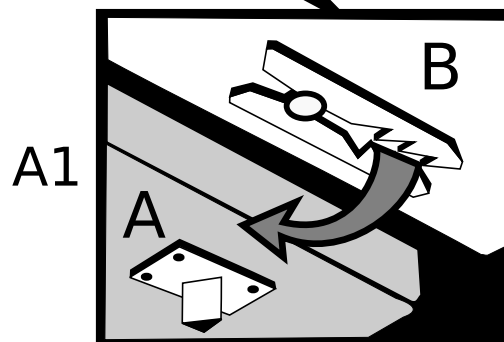

Repeat this step to connect section B to section C.

3. Arrange the seat and back cushions on the sofa.

Bolts 24 pc (8 per modul) - 6x30 mm

**To disassemble the sofa:**

1. Remove all cushions.
2. In order to disconnect the seat modules lift section A while holding down section B so the triangular prism slips away from the connector as shown on Figure D. Repeat this step to disconnect section B from section C.
3. Turn each sectional piece upside down and unscrew the legs.
